Case #

Madeline came home, it was later in the day around 5/6 o'clock. She appeared to be touching herself to become sexually aroused. She penetrated and rubbed, with her legs spread way open, her genitals right in front of me. I took a video and asked that she explain what she was doing and where she learned that from. This has happened to me before, where my daughter has come back after being w/ her father and acting + verbalizing similar sexual things. She stated, on this time and multiple other occasions that her daddy Rubs his finger down on her crotch, and also on her underwear, but this time was worse than anytime I had seen before. I knew she didnt want to talk about it so it was hard to get proper documentation on video or audio. She also stated this evening "Hows my cock?" when playing w/ toy thermometer + putting it in my mouth. She also made herself gag and choke insessently while putting toys deep inside her mouth and back of her throat.

+ more incidents continue to happen where I've seen him touching her genitals

I have read the above statement consisting of 1 pages and attest that it is a true and accurate account of the events which took place on or about 3-27-16. It was given to me voluntarily, without any fear of threat of promise of reward.
